UI/UX DESIGN

Figma · Wireframing · Prototyping · User Flows · Information Architecture · Visual Design · Interaction Design · Design Systems · Responsive Design

DESIGN TOOLS

Figma, Canva

FRONT-END / DEVELOPMENT

HTML5 · CSS3 · JavaScript · React · PHP · Java · C++ · Python

DATABASE & TOOLS

MySQL · VS Code

PROJECT

Glam & Glitter – Jewelry Shopping & Customization App

UI/UX Design | Figma

- Designed a mobile jewelry shopping and customization experience in Figma, covering the journey from product discovery to checkout and order tracking.
- Created 15+ screens including Login, Home, Search, Product Details, Wishlist, Cart, Checkout, Profile, Order Tracking, and Customization flows.
- Developed user flows, wireframes, reusable UI components, typography, color system, and visual hierarchy to create a consistent interface.
- Designed a step-by-step customization flow to make personalized jewelry ordering easier to navigate.
- Created an interactive prototype and documented the design process in a detailed UI/UX case study

Weather Forecasting Web Application

HTML, CSS, JavaScript, React, Node.js

- Built a responsive web app displaying real-time weather data (temperature, humidity, forecast) for any searched city
- Designed a clean, minimal front-end UI with a focus on readability and usability across screen sizes
- Implemented dynamic data rendering by connecting a weather API using Node.js to fetch and display live results

CERTIFICATION

- Learn Figma: UI/UX Design Masterclass from Beginner to Pro – Udemy (February 2026)

LANGUAGES

- English (Professional), Marathi (Native), Hindi (Fluent), Japanese (Currently Learning)
